2026 GRADE 1 RATIONALIZED CREATIVE ACTIVITIES LESSON PLANS - TERM 3

WEEK 1

Lesson 1-3

SCHOOL	LEARNING AREA	GRADE	ROLL	TIME
	Creative Activities	1		

STRAND: Performing and Display

SUB-STRAND: Water Safety

SPECIFIC LEARNING OUTCOMES: By the end of the substrand, the learner should be able to:

a) Identify objects that float in water within their environment.

b) Draw objects that float in water.

c) Appreciate knowing objects that can float in water.

KEY INQUIRY QUESTION(S): Which objects float on water?

LEARNING RESOURCES:

- Papers, basins, jerricans, balls, pictures
- Digital devices, video clips, resource person
- Learner's experiences, learner's course books

ORGANISATION OF LEARNING: Learners will work in groups and individually.

INTRODUCTION The teacher will fill a basin with water and drop two objects in it: one that sinks (like a stone) and one that floats (like a plastic bottle cap). The teacher will ask learners to describe what they see, introducing the concept of floating. **(Note: All water activities are discussed theoretically or demonstrated in a safe, controlled environment like a basin, unless a proper swimming pool and certified supervision are available).**

LESSON DEVELOPMENT Learners are guided to:

STEP 1: In groups, watch live or recorded activities on picking objects that float on water and talk about them.

STEP 2: Brainstorm and list other objects they think can float (e.g., a leaf, a piece of paper, a ball).

STEP 3: The teacher will test some of these objects in the basin of water to confirm if they float.

STEP 4: Individually, draw two or three objects that float in water in their exercise books.

CONCLUSION The teacher will summarize the lesson by reviewing the objects that float. The teacher will praise the learners for their observation skills and participation.

EXTENDED ACTIVITIES Learners to find one object at home that floats and one that sinks and show them to their parents (with supervision).
